

Lawn

GENERAL INFORMATION

GrowMate™ Lawn is an organic-mineral blend of humic and fulvic acids for soils with pH from slightly acidic to alkaline. It is a proprietary formula of soluble nutrients required by the lawn that accelerates and stimulates root and leaf growth.

BENEFITS

- Improves the ability of the lawn to absorb water and nutrients.
- Promotes rapid root anchoring and leaf development to obtain a new lawn.
- Generates and fortifies roots.
- Can be applied in any season of the year.
- Prevents for water stress and temperature changes.
- Helps to repair damage caused by heat, drought and misuse of fertilizer.
- Can be used on any lawn.

METHODS AND RECOMMENDATIONS FOR PREPARATION AND APPLICATION

Before using GrowMate™ Lawn, shake the bottle vigorously, then mix with water in a container according to your coverage area. Pour the mixture into a spraying tank of your preference. Preferably apply GrowMate Lawn after mowing your lawn, after irrigation, early in the morning.

Use the following guidelines for your coverage area:

Coverage area (sq.ft.)	GrowMate™ Lawn	Water
1,000	4 TBS (2 oz)	1/2 (gallons)
2,500 - 3,000	1/3 (gallons)	8 (gallons)
5,000 - 7,000	1/2 (gallons)	25 (gallons)
10,000 - 15,000	1 (gallons)	50 (gallons)

Best results are achieved when GrowMate™ Lawn is used to complement a mowing and fertilization management program.

USAGE PRECAUTIONS AND WARNINGS

This product should not be ingested and contact with eyes must be avoided. In case of contact with eyes, flush with water. The use of protective equipment (industrial lenses) is suggested. May cause skin irritation.

TRANSPORTATION AND STORAGE RECOMMENDATIONS

Store in a cool dry place at temperatures between 45°F (7°C) and 100°F (38°C). Do not store in direct sunlight. Keep it tightly closed in its original packaging.
