

## CompostBoost

### GROWMATE™ COMPOST BOOST PRODUCT BULLETIN

#### GENERAL INFORMATION

GrowMate™ Compost Boost is a blend of plant extracts and other organic substances designed to promote rapid bacteria growth in all types of composting vessels, units and containers. GrowMate™ Compost Boost is added directly to solid waste matter and accelerates the rate of native bacteria growth.

#### APPLICATION

The application volume of GrowMate™ Compost Boost is determined by the volume of waste being treated. 1. Spray the blended mixtures of GrowMate™ Compost Boost directly and evenly on to the waste matter being composted. 2. GrowMate™ Compost Boost should be diluted with non chlorinated water at a rate of one (1) part product to one (1) part non chlorinated water. 3. One (1) gallon of GrowMate™ Compost Boost mixed with one (1) gallon of non-chlorinated water should treat 20 cubic yards of waste material. Managing the balance of water to waste solids in the composting container is critical. 4. Intermittently mix the compost during application of GrowMate™ Compost Boost to improve the products distribution to speed decomposition.

#### PRECAUTIONS AND USAGE WARNINGS

This product should not be ingested and contact with the eyes must be avoided. In case of contact with eyes, rinse with abundant water. The use of eye protective equipment (industrial lenses) is suggested. May cause skin irritation.

#### TRANSPORTATION AND STORAGE RECOMMENDATIONS

Store in a cool dry place at temperatures between 45°F (7°C) and 100°F (38°C). Do not store in direct sunlight. Keep it tightly closed in its original packaging.

#### GUARANTEED ANALYSIS

Humic Acids 1.44%  
(Humic Acid Derived From Leonardite)  
Method of analysis: JAOAC 97(3):721-730 (2014)  
HPTA approved standard analysis method.

Humic Acids 1.50%  
(Humic Acid Derived From Leonardite)
